20:31 WANG Yongming Your call ended

June 1, 2016 (Wednesday)

21:53 JT HE Jianting I have a premonition that we are going to be having a major change

21:53 JT HE Jianting Good luck, and prepare yourself

22:20 WANG Yongming Are you drunk? *XO* I really did bring...the Remy Martin

22:21 JT HE Jianting Meet you next time

June 14, 2016 (Tuesday)

22:17 WANG Yongming Right, I've been meaning to tell you, don't introduce me anymore as having been in charge of *WAT*. In fact, after coming to Micron, I switched to device engineering. For *UMC* people, *WAT* and *device* are two widely disparate fields. For *UMI* and *ESMT* as well...

22:27 JT HE Jianting I understand

22:28 WANG Yongming Sometimes rigid perceptions will prevent communication. Now that I am starting fresh, I would prefer not to walk previously trodden roads

22:28 JT HE Jianting I understand, you are *device*

22:31 WANG Yongming I've settled down, and am grateful for your help

June 23, 2016 (Thursday)

23:27 WANG Yongming *Yiyi* really wants to go to *PI* but is too nervous to say anything

23:33 JT HE Jianting Later there will be opportunities

June 30, 2016 (Thursday)

9:25 WANG Yongming [picture]

9:27 WANG Yongming 4G3C, straight *E300 PFA*

9:28 JT HE Jianting Got it

9:29 WANG Yongming Think it over thoroughly

9:31 JT HE Jianting Next conference I will invite real experts to express their opinions and it will be okay

9:32 WANG Yongming Ask *DF* to speak himself

9:43 WANG Yongming Where did Fuzhe put his public-use computer? Could he loan it to me to look at documents for a while?

10:24 JT HE Jianting Fuzhe's was taken by *Stephen*

10:27 JT HE Jianting Mine is my little cabinet, top slot

11:01 WANG Yongming Thanks

11:02 WANG Yongming I'll use it carefully

July 1, 2016 (Friday)

21:46 WANG Yongming RONG *sir* sent out next year's personnel organization today. There are two level one manager slots open

21:48 WANG Yongming If Teacher JI doesn't come now, there will be no more chances

21:49 WANG Yongming Or a spot is reserved for him.

July 4, 2016 (Monday)

20:12 WANG Yongming None of the device people have reported for duty. I'm worried that RONG *sir* is just creating a team that looks good on paper, while I am left to clean up his mess
20:16 WANG Yongming Big S also is not in a position to give me resources. Without *layout* and *TCAD* in place, *device* is like an empty shell.

20:18 JT HE Jianting It's all like this, one step at a time

20:24 WANG Yongming Right now I don't even have the authority to look at resumes. Feel very powerless...

20:27 WANG Yongming This week I'm going to confront him about this. Almost out of time.

20:51 JT HE Jianting Unanswered call

21:20 JT HE Jianting Yiyi and I had dinner/late night snack. We couldn't find you. Wanted to give you a chance to complain a bit but there was no opportunity.

21:23 WANG Yongming I was feeling gloomy, so I left first

July 18, 2016 (Monday)

21:59 WANG Yongming Brother are you okay? Anything I can help with...

22:24 JT HE Jianting Doing okay, just help Jackie discuss *flow*, that would be good.

August 10, 2016 (Wednesday)

15:22 WANG Yongming *ELPIDA*'s first assessment of *STI SOD* was [REDACTED] *nm*, is that correct?

16:03 JT HE Jianting I think so. In order to develop 25, [REDACTED] was used as a preliminary assessment.

August 11, 2016 (Thursday)

20:48 JT HE Jianting I remember now, the person who draws *layout* is named Shuru [STC: 3219/1172]

21:37 WANG Yongming That's a different person
